We sincerely hope that everyone had a joyous 4th of July in spite of the New England weather and you were able to spend quality time with friends and relatives however you celebrated.

Our monthly meetings are becoming more and more enjoyable and participation in the play along segment and the open mic segment has been steadily increasing. Overall attendance has also been increasing. We are grateful to everyone for the continued support and participation.

The July meeting format will be the usual play along, break, open mic however the play along has been shortened to five selections for this meeting to allow additional time for the open mic session. We have many performers wishing to play.

Physical activity & Accordion playing

Physical activity increases blood flow to your entire body, including your brain.

Playing accordion keeps your mind young –especially if you learn new songs to challenge yourself.

(Use it - or loose it)

Thus end's today's gospellesson "accordion" to Dale!
